

FUTRIX Educator Operating Manual

1. Overview of Educator Console

The Teacher Console empowers educators to create customized tests, analyze student Cohort metrics, and assign automated practice decks.

2. Creating & Publishing Tests

Use the Smart Test Builder to set question counts, marking schemes (+4/-1), and exam durations (e.g. 180 mins).

3. Analytics & Class Reports

Export class rank lists and detailed question-by-question error distribution charts.
